

Applied Products Group, L.L.C.

Since 1967

Applied Products Group (APG) is an environmentally sensitive company offering the most innovative technologies for municipal, industrial, and commercial water and wastewater treatment.

APG works with municipalities, consultants, developers, and design build firms to deliver the most cost effective & environmentally friendly water and wastewater treatment solutions.

APG has been serving the southwest more than 50 years.

How can we serve you?

Constant Chlor

On-site tablet chlorination systems for water & wastewater

TonkaWater

Ground & surface water treatment systems for Arsenic, Nitrates, Radium, Iron & Manganese. Membrane & ion exchange systems

Tek-Trol

Flow (Mag, Inserts, DP, clamp on), Level (Submersibles, Radar, Ultrasonic) Pressure, & Temperature Instruments

Swan Analytical

Turbidity, Chlorine, pH, Conductivity Analyzers

Cerlic Environmental

Suspended Solids Analyzers, Sludge Blanket Analyzers

Enaqua

Non-contact Ultraviolet Disinfection Systems

Nexom

Cloth Media Filtration, Nitrate & Phosphorus Removal, MBBR

Vogelsang

Grinders & Rotary Lobe Pump Systems

JCS Industries

Gas Chlorination, Liquid Feed Systems, Scales & Leak Detection

Jesco America

Chemical Feed Pumps, Chlorine Generators

Keller America

Level & Pressure Measurement

Flomotion Systems

Peristaltic Pumps, Chemical Feed Systems

Industrial Control Links (ICL)

Web Based SCADA Systems & Controls

Miller Leaman

Disc Filtration, Cooling Tower Filters, & Strainers

Titus Industrial Group

Twister Mixing Aerator for Lift Station FOG, Odor & Corrosion Control, Floating Aerators and Mixers

Charter Machine

Belt Filter Presses Thickening & Drying Systems, Polymer Feed

WebTrol

Well Submersible Pumps, Horizontal & Vertical Booster Pumps

TKM Industries

Mechanical, Hydraulic, & Plunger Pumps

HCP Pumps of America

Submersible Pumps, Grinder Pumps, & Package Pump Systems
